## *Who We Are*

Ed Bowman Logs & Forestry is a trusted supplier of premium firewood in Tunbridge Wells and the surrounding areas. Run by Ed himself, the business is built on a passion for quality, reliability, and care for the environment. Whether you're heating your home or fuelling a business, we provide expertly seasoned firewood that's responsibly sourced and delivered with efficiency and professionalism.

# *Our Logs*

## 1. SEASONED LOGS

Our seasoned logs are perfect for creating a cosy atmosphere in your home. Carefully dried to reduce moisture content, these logs burn efficiently, producing a pleasant warmth and a delightful aroma. Ideal for open fires, our seasoned logs are a classic choice for a traditional fireside experience.

---

## 2. WOOD BURNER LOGS

Designed specifically for wood burners, our wood burner logs offer exceptional performance and efficiency. Carefully selected for their density and burning properties, these logs provide a consistent and long-lasting heat source. Enjoy the benefits of a cleaner burn and reduced emissions with our wood burner logs.

---

### 3. KINDLING

Get your fire started quickly and easily with our high-quality kindling. Made from dry, small pieces of wood, our kindling is perfect for igniting your logs and getting your fire going in no time.

---

### SUSTAINABILITY & QUALITY GUARANTEE

We are committed to sustainable practices and sourcing our logs responsibly. Our logs are locally sourced whenever possible, reducing our carbon footprint and supporting the local economy. We also pride ourselves on the quality of our logs, which are carefully selected and stored in our barns to ensure optimal conditions.

---

# Product List

## Barrow Bag | £52.50

Our Barrow Bag of seasoned logs is a convenient and manageable option for homes with limited storage space or lighter heating needs.

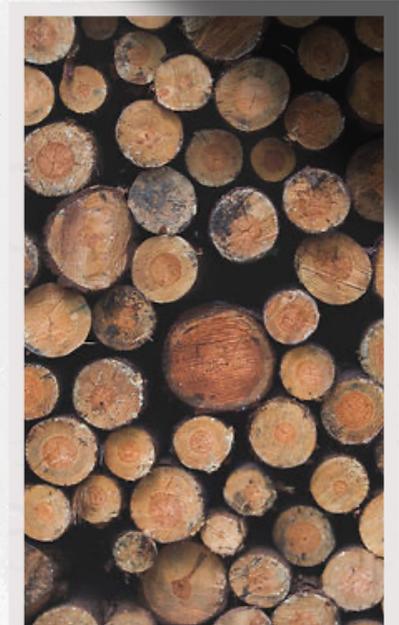

Each log is carefully seasoned to reduce moisture content, ensuring a clean, efficient burn with excellent heat output and minimal smoke.

## Builder's Bag | £99.75

These logs burn efficiently, producing a pleasant warmth and a delightful aroma. Ideal for open fires, log burners, and fire pits, our seasoned logs are a classic choice for a traditional fireside experience.

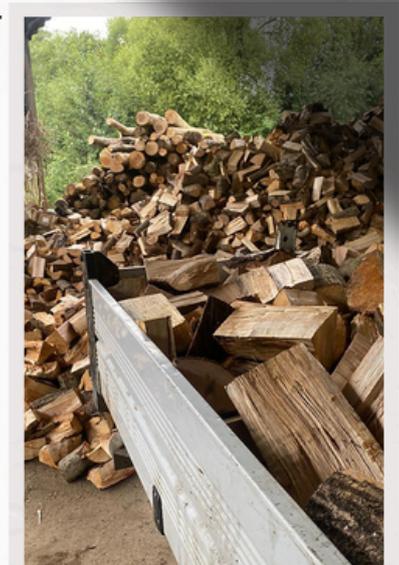

Delivered in a large builders bag (approx. 80x80 cubic metre), they're easy to store and ready to use, perfect for keeping your home warm and inviting throughout the colder months.

## 5 Nets of Logs | £42.00

Perfect for occasional use or topping up your wood store, our 5 nets of seasoned logs offer a convenient and easy-to-handle supply of quality firewood. Each net contains carefully dried logs with a low moisture content, ensuring a clean, efficient burn with minimal smoke.

Ideal for open fires, log burners, fire pits, and chimineas, these logs create a warm, cosy atmosphere with a pleasant, natural aroma.

# *Gym Log Collection*

## 1 m<sup>3</sup> Gym Logs | £85.00

These extra-large logs are ideal for big open fires, large log burners, biomass boilers, and outdoor fire pits where a longer burn time is preferred.

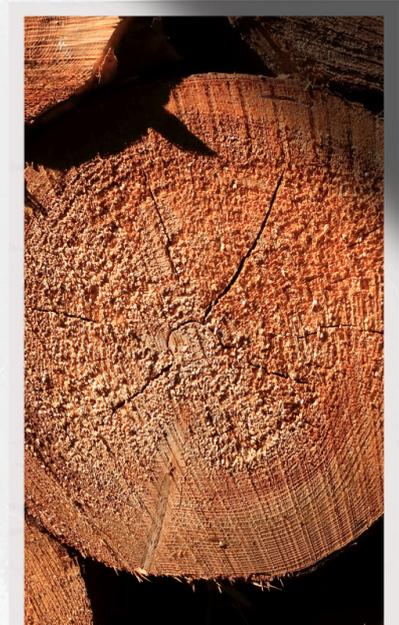

Carefully seasoned to reduce moisture content, these logs burn cleanly and efficiently, producing a strong heat output with minimal smoke.

## 2m<sup>3</sup> Gym Logs | £170.00

These chunky logs – commonly referred to as “gym logs” – are ideal for big log burners, large open fires, fire pits, and outdoor wood-fired setups such as saunas and hot tubs.

Each log is carefully seasoned to reduce moisture content, ensuring a cleaner, hotter, and more efficient burn with fewer reloads.

## 3m<sup>3</sup> Gym Logs | £255.00

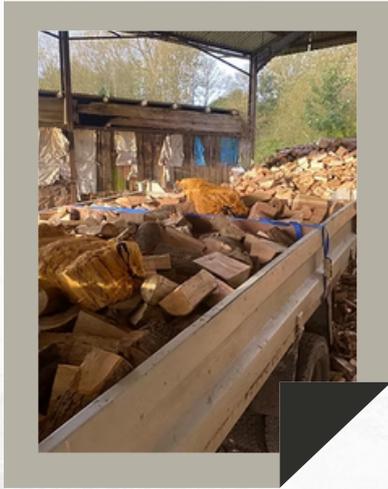

These chunky logs are perfect for large log burners, open fires, fire pits, saunas, and outdoor wood-fired installations that demand bigger, slower-burning fuel.

Carefully seasoned to reduce moisture content, these gym logs burn cleanly and efficiently, providing a steady, intense heat with minimal smoke and fewer reloads.

# Standard Logs

---

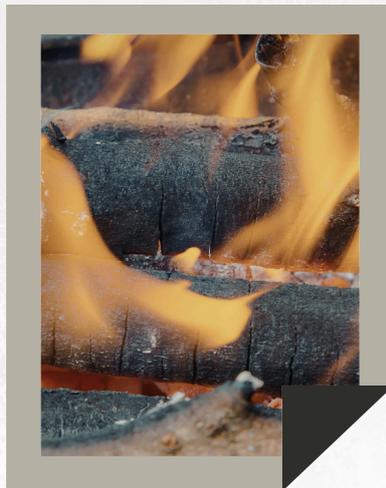

Stay warm with our bulk 2m<sup>3</sup> and 3m<sup>3</sup> load of seasoned logs – ideal for regular use throughout the colder months. These standard-size logs are carefully dried to a low moisture content, ensuring an efficient, clean burn with excellent heat output and minimal smoke.

2m<sup>3</sup> Standard Logs | £253.57

3m<sup>3</sup> Standard Logs | £330.00

# Firepit Logs

---

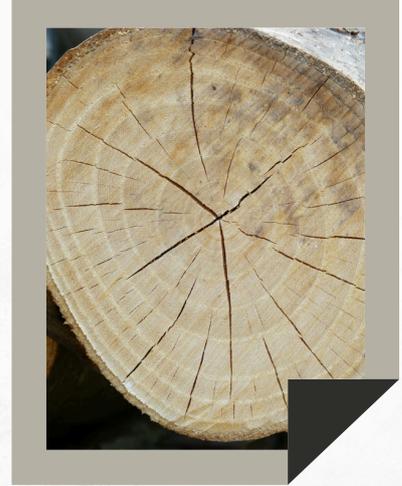

Keep your home warm and cosy with our 2m<sup>3</sup> and 3m<sup>3</sup> load of seasoned logs. Carefully dried to reduce moisture content, these logs burn efficiently, producing a pleasant warmth and minimal smoke, perfect for wood burners, open fires, and log stoves.

2m<sup>3</sup> Firepit Logs | £253.57

3m<sup>3</sup> Firepit Logs | £330.00

# Larger Logs

---

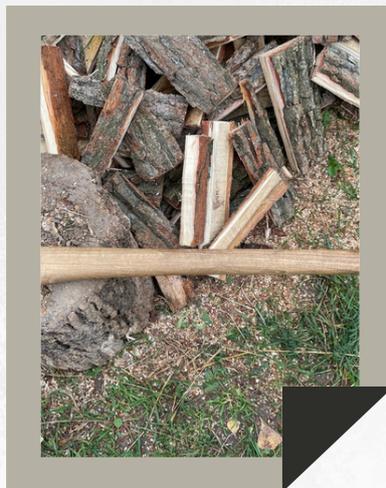

Our 2m<sup>3</sup> and 3m<sup>3</sup> load of larger seasoned logs is designed for longer, slower burns. These bigger logs are perfect for large stoves, open fires, fire pits, and outdoor heating where extended burn times are needed.

2m<sup>3</sup> Larger Logs | £253.57

3m<sup>3</sup> Larger Logs | £330.00

# Kindling

---

Start your fires quickly and easily with our high-quality kindling bundle. Perfectly sized and seasoned for fast ignition, our kindling is ideal for lighting logs, charcoal, and any fire-building needs.

£6.50

# *Choosing the Right Logs for Your Home*

When it comes to keeping your home warm and cosy, selecting the right firewood makes all the difference. At Ed's Logs, we supply a carefully curated range of locally sourced, seasoned firewood tailored to meet a variety of heating needs — from open fires and wood burners to outdoor fire pits. Our logs are responsibly sourced and dried to deliver the best combination of heat, efficiency, and ease of use.

---

## Why Seasoned Logs Matter

Seasoned logs are wood that has been dried naturally to reduce moisture content, improving combustion and heat output. This means fewer sparks, less smoke, and a more efficient burn — ideal for both traditional fireplaces and modern stoves. Ed's Logs uses barn storage and careful drying practices to ensure your logs perform reliably when you need them most.

---

## Match Your Logs to Your Fire

- **Standard Seasoned Logs:** Perfect for everyday use in fireplaces, wood burners, and stoves. These logs deliver a steady, reliable heat and are great for homes that use their fire regularly during the colder months.
  - **Larger Logs:** If you're looking for longer burn times and deeper heat, larger seasoned logs are an excellent choice. They're especially suitable for bigger spaces or high-demand heating needs.
- 

- Netted Log Bundles: For occasional fires or top-ups to your wood store, smaller nets of quality dry logs are convenient, easy to store, and versatile for indoor or outdoor use.

---

## Extras That Make Lighting Easier

Don't forget the essentials — kindling makes starting a fire quick and fuss-free, especially on chilly evenings. Ed's Logs offers dry kindling alongside its firewood range so you can light confidently every time.

---

## Sustainability and Convenience

All logs from Ed's Logs are locally sourced whenever possible, supporting sustainable woodland management and reducing transport emissions. With a range of sizes and bundles available on the shop page, you can choose the perfect fuel for your home — and have it delivered right to your doorstep.

# Testimonials

---

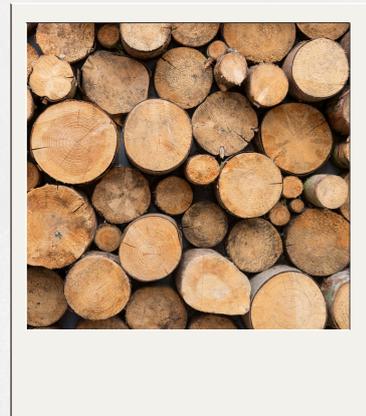

Gareth Walters ★★★★★

Thoroughly recommended. Ed is responsive and professional. The logs came when promised and they burn beautifully in my wood burning stove. E&C are my supplier of choice.

Mark Collins ★★★★★

Reliable and speedy delivery, would recommend.

Neal Bamford ★★★★★

I came across EC Logs by happy accident. The service and product they supply are both of top quality and competitively priced. Why risk your comfort with some random off FB Market, and end up paying more when you don't have to?

## *Let's begin warming your home*

At Ed's Logs, we believe every fire tells a story, from quiet evenings in to gatherings with family and friends. With our carefully sourced, seasoned logs, you're choosing quality, sustainability, and simple, honest warmth. So whether the nights are drawing in or the frost is on the ground, let's begin warming your home... naturally, beautifully, and one log at a time.
